**INNOVATE**

# INNOVATE

AgosIT offer innovative Quality, Technical and Strategic solutions and services to the Pharmaceutical and Healthcare Industries.

# DRIVEN BY QUALITY TO ENSURE COMPLIANCE

## ABOUT US

AgosIT offers bespoke, globally accessible, outsourced IT solutions to Pharmaceutical, Biotech, CRO and Healthcare organizations. We assist with choosing, deploying, running and expanding technology needs, while keeping regulation, data integrity and compliance requirements at the centre of the solution design.

Data Integrity Assessments and Guidance

SOP and Policy Creation

GxP and DI Training

Project Role Fulfilment

GxP System Hosting

Periodic Review Support

Access Management

Remediation Projects

Gap Assessments

Equipment Validation

## MANAGED SERVICES

### Quality Support Package

AgosIT's quality support package offers peace of mind in times of heavy workload. AgosIT can support your business with its QA support functions to allow your quality team to focus all their effort on patient safety, product quality and data integrity. Our service provides instant quality support when it's needed without the associated cost of employing extra resource.

### System Management Package

AgosIT's system management support service provides an all-encompassing GxP admin service for your IT systems. This allows your IT and technical department to focus on what matters and not the day to day administration of your GxP systems.

## EQMS AS A SERVICE

### eQMS Solution

AgosIT offer a fully validated and supported Electronic Quality Management System configurable to your business requirements. We offer this service at a low monthly cost dependent on level of access and modules selected which allows full access to an EQMS without the expensive upfront costs of procuring, configuring and validating the system internally.

### Available Modules:

- Document Management
- Quality Manager
- Training Management
- Audit
- Risk
- Asset
- Supplier

AgosIT
